# MiraVera

the Beauty Elixir

## Oxygen – let your skin breathe again!

80 % of the human organism is made up of oxygen. The oxygen supply of the body is ensured through breathing but also by our skin. A variety of metabolic processes is made possible only by the involvement of oxygen. This means that the more our body is supplied with oxygen, the better many metabolic processes can take place.

## Oxygen ...

- ... is needed for each single cell in order to produce energy
- ... is responsible for numerous metabolic and regenerative processes
- ... improves the blood circulation and hence the supply of nutrients to the body cells
- ... promotes a smooth and rosy skin thanks to its vitalising effect

#### FACIAL APPLICATION:

Following skin cleansing and prior to further skin care applications, spray MiraVera onto a cotton pad and apply it to the facial skin.

#### APPLICATION ON THE BODY:

Spray MiraVera on your skin as required and allow it to dry.

Tip: MiraVera has a vitalising and refreshing effect especially in the morning.

#### FURTHER APPLICATION AREAS:

As deodorant, after shaving or epilation or vitalising dry brushing, locally in the case of skin blemishes or dry and cracked skin of hands and feet.

MiraVera is a refreshing skin tonic containing oxygen and essential oils to spray onto the skin.

- ✓ helps the skin to regenerate and harmonises the metabolism of the skin
- ✓ has a refreshing and vitalising effect
- ✓ stimulates and activates the circulation of the skin
- ✓ soothes and calms reddened and stressed skin areas
- ✓ refines the skin, giving it a smooth and supple look
- ✓ for a beautiful texture of the skin on face, neck, décolleté and breast

## The perfect match – MiraVera and AlkaLife

In addition to external body care, vitalisation from inside your body is indispensable for a brilliant appearance. The omnimolecular 100 – plants - organic – food AlkaLife supplies the organism with valuable vitamins, minerals and secondary plant substances needed for perfect regeneration.
