Why is energy necessary?!

A premature baby must be put in an Incubator to add energy, otherwise they can not live.

Humans will die without energy.

Eggs can not become chickens without incubating even though they have a lot of nutrition

Nutritious food won't benefit without energy.

Relax FIR energy is good energy !

If your skin can absorb, it means that energy is helpful to you!
You can try it to feel the power of Relax energy!

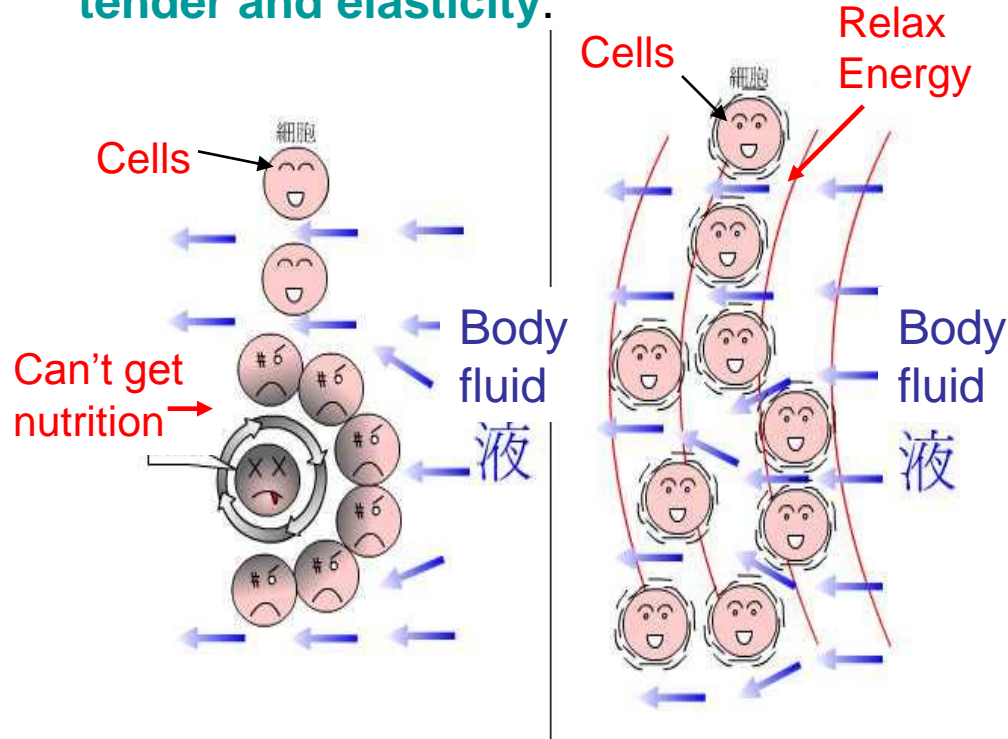

How we gauge if it is absorbed by humans?

If you remain 30cm range while using Relax Radiator, No matter how longer you use, your skin won't get burned and dried at all!

No matter how long you use Relax Radiator the temperature on your skin will not be over 45°C. The energy does not accumulate, and it is the best test of transmit and absorbing.

Gravity pulls down the body cause many parts of body being blocked up due to the nutrition in our body can not pass through. If cells cannot receive enough nutrition, the new cells can't be created. If our body are filled with old cells, how can the skin be **tender and elasticity**.

Let the whole body receive the nutrition uniformly by Relax 4~14um energy wave. While cells are healthy, skin will be beautiful and young.

**Beautiful and smooth skin!
Healthy cells reproduce every 28 days.**

**Dry and yellow old skin!
Wrinkle will appear when old skin cells replace every 50 days.**

RELAX ENERGY SAUNA

2007-2008 BEFORE & AFTER PICTURES OF KAREN RUSSELL

BEFORE

AFTER

Karen reports that after 2 1/2 years of struggling with heavy metal toxicity (mercury, lead, etc.), although she had had moderate success with a number of other products, her symptoms still persisted, and her lab reports all showed too much mercury and lead. After 5 weeks of using the Relax Sauna, Karen felt so much better. Her lab reports also for the 1st time showed normal levels of mercury and lead.

Karen had already lost some weight before getting the Relax Sauna. However, after using the sauna, she reports to us that in the next 2 months, her skin texture dramatically changed, her cellulite decreased 65-70%, her skin was no longer dry, & her fat content went from 38% to 20%

- I am forever indebted to your company for the health benefits I have derived from your Far Infrared Sauna. Allow me to give you some background. I am a gerontologist and holistic health counselor, board certified by the Association of Drugless Practitioners. In my quest for health and longevity, I discovered that I had extremely high levels of heavy metal toxicity, including mercury and lead. Though they had been going down with supplements, Zeolite, removal of my mercury fillings, foot detox pads, chlorophyll, cilantro and DMSA treatment over the last couple of years, I could **not** get them to normal levels. My holistic MD had been telling me to get a far infrared sauna to detox from my heavy metals, but I didn't think I had space for one in my home, nor did I know which one to select.
- Quite by accident, while I was attending the ACAM (American College for Advancement in Medicine) conference, I was talking to one of the MDs who was lecturing about detox, and was asking her about the FIR saunas. She recommended one she was using in her practice, which turned out to be your model. Imagine my delight when I found out it was totally portable and could easily fit into a small closet, and set up in less than three minutes.
- I was so amazed that after only about a month of use, not only did my labs show my heavy metals were now normal, but I discovered that my cellulite was dramatically improved. Within a few months of daily use, my skin texture dramatically changed. My cellulite was over 65-70% improved, and my skin was no longer dry. It was nothing short of amazing.
- Since I enjoy eating, and used to have a weight problem, I was thrilled to burn 600-1200 calories in each session, depending on how long I use the sauna for. In this way, I have been able to consume a great deal more calories, without gaining weight. Again this is a miracle for me.
- Of course, my studies and research in natural health have documented that most disease is a result of accumulated toxins. The top medical doctors in the field of environmental toxins have emphasized the importance of eliminating the toxins stored in the fat in our bodies, via sweat produced by far infrared rays of 4-14 microns. I had never perspired much, other than a few beads of perspiration here and there, (which is possibly why I accumulated toxins in the first place). I was shocked and delighted that with your FIR sauna, I literally pour sweat. And it is at the proper wave length of 4-14 microns. My body composition has been documented and my fat has gone down from 38% to 20%. I have attached before and after pictures (NOT retouched in any way.) Although I will be 56 in September, 2008, I am told I look like I am in my late 30's or early 40's. I actually feel like I'm 18!
- I also used to have occasional knee and back pain and the sauna alleviated that, too, not to mention that it is deeply relaxing .
- I have a variety of tools in my "wellness arsenal," but I must say that the FIR sauna is the single most important device I have ever used. In my practice, I tell my clients that it is an essential tool for wellness and longevity.
- Kudos to your company for such an outstanding product!
- I rarely miss a day of using my FIR Relax Sauna. To say "thanks a million," would be an UNDERSTATEMENT. If anyone ever has any questions about the quality or efficacy of your saunas, or the outstanding service you provide, please feel free to use me as a reference.
- With great appreciation, Karen Russell, MA, HHC/ www.HealthyLifeAdvisors.org/ 818/347-8955

Relax FIR Sauna is made of the hi-tech Semiconductor Chip in Taiwan with self-temperature feature and it is 100% safe even if you put the tissue paper in the heater.

Relax Sauna is made with 40 pieces hi-tech self temperature control semiconductor. The wavelength and temperature are already set up by program. The wavelength is 4~14um, which can be absorbed by human and temperature had been set up under the ignition point, so it is very safe even you put the tissue paper in the heater.

Difference between “pirated” Sauna and The Relax FIR Sauna.

- Pirated sauna is so cheap because their heat source is just a normal heater like ordinary space heater. The ordinary electric can just provide the heat, but can't filter the bad energy which is not good to human. The heat to human is sweating the surface only, it can not achieve the deep muscle relaxation and deep detoxification effect due to its lack of power and purification.

(Clinical)Heal over the wound!

If microcirculation doesn't work well, part of the cells will not get enough nutrient and the cells will die easily. Once cells died and that part can't get enough nutrient to self repair, it will cause non-healing wound. On the other hand, once cells can get nutrient and repair by itself the wound can be heal quickly.
